NOTICE TO BOONE COUNTY TAX PAYERS: 2024 ASSESSED VALUES

The following is a complete list of real estate that has been made or changed by the Township Assessor or Supervisor of Assessments for the 2024 assessment year for Boone County. This publication is made in accordance with Section 12-10 of the Property Tax Code and serves as public notice to the taxpayers of Boone County of the assessed values fixed upon their property by the Township Assessor or Supervisor of Assessments. The assessment of property other than farmland and coal are required by law to be assessed at 33 1/3% of fair market value. The median level of assessment for non-farm property in Boone County is 29.92. You may check the accuracy of your non-farm property by dividing your assessment by the median. The resulting value should equal the estimated fair cash value of your non-farm property. If the resulting value is greater than the estimated fair cash value of your property, you may be over assessed. If the resulting value is less than the fair cash value of your property, you may be under assessed. All equalized assessed values are subject to further equalization and revision by the Boone County Board of Review as well as equalization by the Illinois Department of Revenue.

Equalization Factors have been applied to Residential, Farm Residential, Commercial and Industrial as follows to the following Townships;

Manchester Township	1.0000

The equalized assessed value of your property minus exemptions is multiplied by the tax rate to arrive at the taxes you will pay. The tax rate is determined by the amount the taxing bodies levy in your tax districts.

Owner occupied properties may be eligible for various homestead exemptions as provided for in Section 15-165 through Section 15-175 and Section 15-180 of the Property Tax Code. Contact the Boone County Supervisor of Assessments Office at 815-544-2958 or check the County website for more information on these exemptions.

Pursuant to 35 ILCS 200/10-115, the FARMLAND ASSESSMENTS for the 2024 assessment year will increase by 10% of the preceding year's median cropped soil productivity index as certified by the Illinois Department of Revenue with data provided by the Farmland Assessment Technical Advisory Board resulting in a $46.87 per acre increase for each soil productivity index.
